

SensorPresion::procesarLectura

SensorTemperatura::  
procesarLectura

ListaSensor::calcularPromedio

```
graph LR; A[SensorPresion::procesarLectura] --> C[ListaSensor::calcularPromedio]; B[SensorTemperatura::procesarLectura] --> C;
```

The diagram illustrates a dependency or call relationship. Two methods, `SensorPresion::procesarLectura` and `SensorTemperatura::procesarLectura`, are shown in white boxes on the left. Two blue arrows originate from the right side of these boxes and point to a single method, `ListaSensor::calcularPromedio`, which is shown in a gray box on the right. This suggests that both sensor methods invoke the `calcularPromedio` method of the `ListaSensor` class.
